

DIDSBURY PIONEER

VOL. XXVIII, No. 23

DIDSBURY, ALBERTA, THURSDAY, JUNE 11, 1931

\$2.00 per Year

Sportsmen Asked To Join Association

A drive is being made this week for the Didsbury branch of the Fish & Game Association. Mr. George Julien is in charge of the drive and all those who are interested in fishing and hunting will be glad to get behind him in the effort to increase the membership.

A meeting of the executives was held Monday evening and many matters for the betterment of hunting and fishing were discussed. It was decided that a rearing pond for trout be established on Bear Creek, a tributary of the Fallen Timber and that work will be commenced as soon as inspection can be made as to the suitability of the location by an official of the Fisheries Department.

The Association will continue to encourage the raising of game birds and are preparing to supply many who are interested with Chinese pheasants for breeding purposes. Mr. Dan Dippel was appointed to make arrangements for obtaining the birds this fall. The Association is interested in the enforcement of the fish and game laws and a strong membership will have a tendency to check infractions of the laws.

Funds are required to carry on the work and with the low membership fee of \$1.00 it will be necessary to secure a large membership to carry out the program laid down.

Coming Events

Et. Cyprian's W.A. will hold a sale of home-cooking in the Opera House on Saturday afternoon, June 20th at 3 p.m. Tea will be served during the afternoon and a businessmen's supper from 5 to 7:30 p.m.

BASEBALL

An exhibition game Monday night with Carstairs as guests ended in a 7-4 win for the locals. Didsbury played sloppy ball at times, but lightened up and delivered the goods in the pinches. Scotty Lee was in real form, fanning twelve opponents and apparently didn't exert himself at any time. The visitors played a fair brand of ball, but showed lack of practice. After lunch and Bert says they were so tame that they would almost eat out of his hand. Further down the river fishing was better and they made good catches, catching several trout weighing upwards of 1 lb.

They say going fishing with a car is tame but riding horse back makes you sore. Bert also says he lost 2 in. at the waist band during the trip.

Line-up:

Didsbury: 1b, Wyman; 2b, H. Lee; 3b, Stauffer; ss, Cook; p, S. Lee; c, Woodcock; cf, Gooder; lf, Russell; rf, Berscht. Carstairs: 1b, Black; 2b, Weber; 3b, Chrystal; ss, Inc; p, McKay; c, P. Stuhl; cf, C. Stuhl; lf, Durant; rf, Keith.

OLDS vs. DIDSBURY

Didsbury lost another tough game at Olds last Friday night when they returned home on the short end of a 5-1 score.

The locals scored in the first frame and held Olds till the fifth when the score was tied up by a walk and an error. The score remained even till the eighth inning when Olds got away for four runs. Bob Gooder had pitched masterful ball up to then, but in that inning he allowed four hits and struck one better. Bob allowed seven hits in the game and struck out twelve. J. Raisbeck, of Olds was also in fine form, he struck out fifteen of the local sluggers and allowed nine hits.

That Fish Story!

Jack Topley and Bert Fisher both came in on Monday and gave the promised fish story. They left a week ago and went by car as far as the Rangers Station beyond Coal Camp, from there they took saddle horses and went on through the first range of mountains. They report very little fish in the game reserve, but say that game is plentiful, having counted a hundred deer in one day, 33 of which were in one bunch and Bert says they were so tame that they would almost eat out of his hand. Further down the river fishing was better and they made good catches, catching several trout weighing upwards of 1 lb.

They say going fishing with a car is tame but riding horse back makes you sore. Bert also says he lost 2 in. at the waist band during the trip.

WEDDING

DEADRICK-RUPP

The home of Mr. and Mrs. Wm. Rupp was the scene of a very pretty wedding at high noon on Wednesday, June 3rd when their daughter, Flora Anna was united in holy wedlock to John Dewey Deadrick, son of Mr. and Mrs. Charles Deadrick, their pastor, Rev. H. E. Roppel officiating.

The bride, who was given away by her father, looked charming in a gown of ivory silk with embroidered silk net veil crowned with orange blossoms and carrying a slender bouquet of butterfly roses and lilies-of-the-valley. Miss Rosie Rupp was bridesmaid, attired in a naive suit and carrying pink carnations. The groom was assisted by his brother, Eldon.

The wedding music was played by Miss Ivy Rupp and during the signing of the register, Mrs. A. Deadrick sang "Because." After congratulations, a delicious lunch was served to about forty-five guests. A beautiful bride's cake adorned the dining room table and a variety of handsome gifts were presented to the young couple.

Mr. and Mrs. Deadrick left by motor for Los Angeles, California and Kansas, the bride traveling in a flowered suit with hat to match and fox fur. On returning they will reside on their farm near Didsbury.

The Empress of Britain has made new records for the voyage from Southampton and Chertbourg to Quebec. When the great white liner swung into her dock at Wolf Cove it was just 5 days 12 hours and 25 minutes since she had left Southampton.

Note the change in prices for the talkies. 25c to everybody.

Mountain View Reduces Mill Rate

The mill rate for Mountain View Municipality was set at 9 mills for the current year, at the meeting of the council held at Olds Saturday last. This is a reduction of one mill from last year.

The government grants were: Capital grant, \$2,000.00 and Income grant, \$1,785.00. The capital grant will be allotted equally to the market road running east from Didsbury and Olds and the income grant will be used in different parts of the municipality. Both grants will be duplicated by the council.

Westerdale Municipal Council Meeting

The council for Westerdale Municipality met on Saturday with all councillors present. The secretary reported the grants available this year will be: Income grant, \$1,545.00 and Capital grant, \$1,000.00. To be cancelled, these grants will have to be duplicated by the municipality.

The question of mill rate was thoroughly discussed, but the setting of the rate was left over to the next meeting. It is generally conceded that the rate will be lower than last year. But as the payments made to school districts in 1930 was greatly in excess of the school taxes collected, it becomes necessary to make up the deficit and unless a considerable amount of school taxes can be collected by July 1st it will be impossible to set as low a rate as the council had anticipated.

"Masonic Night" at Knox Church, Didsbury on Sunday evening. The members of King Hirun Lodge have been invited. Rev. A. E. Hays will conduct the service. A social invitation given to all.

More Exhibitors Wanted For Annual Fair

The directors of the Didsbury Agricultural Society are sparing no effort to make the annual fair a bigger success than in previous years. The prize list is being distributed and it is particularly arranged to encourage farmers of the district to enter exhibits.

It is known there are lots of good horses, cattle, sheep and swine in the district, but while there are many faithful exhibitors there is some difficulty in inducing many owners of good stock to fit their animals for exhibition.

The exhibition is supposed to be educational along agricultural lines and the friendly competition among exhibitors is intended to set forth where, why and how certain exhibits are better than others, in the hope that all farmers will benefit by the comparison given.

All the farmers are asked to take more interest in the fair both by exhibiting and attending. Right now is the time to start preparing livestock for exhibition as a little daily attention means that the animal will be fully fitted for the fair dates which are July 25th and 26th.

Prize lists may be secured from the secretary, Mr. C. E. Reiber.

Birdhouse Competition.

The birdhouse competition held by the Atlas Lumber Co. attracted quite a number of entries and the boys are to be complimented on their good work. The following were the winners:

Country:

1st, Arnold Russell, Rugby School.
2nd, Alex. Youngman, Jutland.
3rd, Clifford Murphy, Westcott.

Town:

1st, Harold Ebb.
2nd, Charles Cunningham.
3rd, David Madoche.

Taking Canada's Census

The decennial task of "counting noses" in Canada, or, in other words, the enumeration of the census of the Canadian people, takes place in the month of June. It is a big and fairly expensive job requiring the services of a small army of men, and, after their initial work is completed, hundreds of clerks and expert statisticians will be engaged for months compiling, tabulating and analyzing the returns sent in to Ottawa by these thousands of enumerators.

The question may naturally arise in the minds of some people: Is it all worth while? Is such a large expense justified, especially in these times of declining revenues and enforced economies, merely to ascertain how many people there are in Canada, and an array of facts relative to each individual? There can be only one answer to such questions. It is very much worth while; in fact, it is vitally important. Just as it is of importance and value to a farmer to know how many bushels of grain he may have produced from a given number of acres; how many chickens he possesses; how many pounds of milk and cream his cows have produced; or to a business man how great his annual turnover has been, so is the collection of the census information of importance and value to the nation as a whole. It is a form of national stocktaking.

But that is not all. Under our Canadian system of government, and the relationships, financial and otherwise, which exist between the Federal and Provincial governments, population is an important factor. In many respects it is the all-important, the deciding factor.

First and foremost, the representation of the people in Parliament is based on population. Let us illustrate: Suppose, for example, the census shows a population of 3,000,000 people in the Province of Quebec. Under the constitution those 3,000,000 people are entitled to 65 members in the House of Commons, that is, one member for each 46,154 people. Therefore each group of 46,154 people in every other Province is entitled to a member. After each decennial census there is a redistribution of representation in the House of Commons based on the facts disclosed by the census. In this way the representation of all parts of the Dominion is made and kept uniform and equitable.

Furthermore, the financial relations between the Dominion and the Provinces is based on population. The Dominion pays cash grants to the Provinces of so much per head of population, and in the case of the three prairie provinces it pays increasing amounts annually as population increases until a certain maximum amount is reached. Unless there was a census-taking these amounts could not be accurately ascertained.

Again, only by knowing the population it is possible to arrive at such facts as the amount of the per capita debt, per capita taxation, volume of trade and commerce per capita, and a volume of other statistical matter upon which both national and Provincial policies of finance and taxation are founded.

While the enumerators are thus "counting noses" they are also gathering other important information. The wealth of the Dominion, its productive capacity, the social condition of its people, their racial antecedents, the extent of their literacy, how many males and how many females, how many children, middle-aged, and aged people—information all having a bearing on future policies for the development and well-being of the Canadian nation.

This year, for the first time, complete information is to be obtained on the subject of unemployment, how many are out of work, the nature of their usual employment, what caused their state of unemployment, etc., etc.—all with a view to finding out the actual extent and causes of unemployment as a guide to trying out and applying the necessary remedies, and developing policies to prevent a recurrence of such an unsatisfactory and deplorable condition.

It will be seen, therefore, that the census-taking is a vitally important national undertaking. It is clearly the duty of every citizen to co-operate with and assist the census enumerator in his work. His questions should not be resented, but, on the contrary, should be welcomed and full information freely and gladly given to him. It will be discharging his duty, a national duty at that. In like manner the citizen will be discharging a national duty by extending every assistance in his power.

Largest Fur Shipment

The largest single shipment of white fox pelts ever received in Winnipeg reached the city recently by Canadian National express. This shipment was transported from the shores of Hudson Bay over the Hudson Bay Railway. The shipment, which was valued independently of the large fur companies included 121 white fox pelts and a dozen red fox pelts, all of which were trapped in the high north during the past winter.

Has Many Friends

One of New York's wealthiest bachelors is Sumner Ballard, once known as "a millionaire reporter." Each year in his town house he gives a dinner party for 200 of his friends. It is said to comprise the strangest list ever collected under a single roof, representing almost every stratum of society from newsboy to millionaire.

Denmark has only 179 miles of air service routes.

Heart and Nerves So Bad Was Unable To Sleep For Hours

Miss Theresa M. Havery, Gillingsterville, Ont., writes: "I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could enjoy a good night's rest and rapidly regained my former state of health."

Soviets Could Mobilize Large Army Quickly

National Leaders Have Made Provision For Any Emergency

Despite protests from the Soviet that the Russians are working for peace it is estimated that the nation could mobilize an army of 17,000,000 men within three months of the outbreak of war. Of these, some 10,000,000 would be members of line regiments and provide a rifle strength of that number.

Within three weeks of the start, the Soviet is believed capable of throwing 3,000,000 fighting men into action. In addition, the national leaders have been concentrating on supplies, and they keep permanently in reserve enough coal to last three months. They are also building up the air wing of the fighting corps.

Besides tossing bushels of wheat on the world markets, the Soviet is evidently ready to throw in quite a supply of cannon fodder when the time comes.

MOURING WARDROBE

"A death occurred in our family and I had to go to mourning. I could hardly afford to buy all black clothes, so I decided to dye what I had. I consulted our druggist and he advised using Diamond Dyes. Everything came out beautifully: coats, wool dresses, stockings and all. I have since learned to appreciate the excellent quality of these dyes. I tried another black dye and the results were impossible. I had to get Diamond Dyes and do the work over. Recently I have tinted my curtains a beautiful raspberry shade and dyed a rug a lovely garnet with Diamond Dyes. They are real money savers the finest dyes money can buy—I truly believe."

Mrs. G. K. L. Montreal.

Viny Memorial

Major Newburn Will Endeavour To Hasten Completion Of Work

Major-General S. C. Newburn, of Hamilton, Ont., who sailed for Europe on the "Empress of France," will endeavour to hasten completion of the Viny memorial while overseas, he said. Before the boat left, the officer, in referring to the memorial said:

"As chairman of the national battlefields commission, I am going to meet General Hughes, who is now in Europe, and one of the things I will do is try and expedite the completion of the Viny memorial. This memorial was supposed to be finished next year, but I understand there has been some delay in receiving the stone and while I can say nothing officially, it is possible that the completion of the memorial will be somewhat later than expected."

Worms are encouraged by morbid conditions of the stomach and bowels and so subside. Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which kills the worms and destroys, but a health-giving medicine most beneficial to the young constitution.

Record For Apple

Apples of any variety that cannot stay a week off the branch without rotting ought to blush in shame before the record of a clove apple in the possession of Mrs. Charles Hollins, Worcester, Mass. Plucked at Bridgewater 62 years ago and preserved, it is in as good a condition as if just taken from a tree.

Nights Of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his limbs. A trial of general relief is the immediate effect of Dr. J. D. Kellogg's Asthma Remedy. It banishes the frightful condition, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as should be his on the genuine at your nearby druggist.

Market Low Grade Wheat

The Edmonton Chamber of Commerce has appointed a committee to prepare a report in connection with the development of an Eastern market for low grade Alberta wheat and coarse grain. The object will be to sell in Ontario and Quebec supplies of low grade grain for feeding purposes.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy. Mother Graves' Worm Extirminator.

W. N. U. 1859

Use Machine Guns

Toronto Police Force Being Trained To Handle Deadly Weapons

Detectives of the Toronto police department are being trained to handle machine guns if the occasion ever arises to use these deadly weapons, the Toronto Star says. Three guns that are 1,000 rounds in a minute and bullets that travel 930 feet a second, are being experimented with by Inspector Robert Alexander, in charge to Chief Draper, and officer in charge of training.

Officers of the motorcycle squad, the Star further says, are also taking part in the training which will be extended to other ranks after all detectives are thoroughly schooled.

Government Advertising Campaign

Large Sum Spent In Urging People To Buy Canadian-Made Goods

Total of \$92,020.77 was spent by the Dominion Government in the advertisements of the Department of Trade and Commerce which urged the people of Canada to buy Canadian-made goods. This sum had been spent since the present administration assumed office, according to a return tabled in the House of Commons.

The money was distributed among the newspapers of the country as follows: Dailies, \$38,023.49; farm papers, \$36,417.46; miscellanies, \$17,979.82, and weeklies \$6,602.81.

A new automobile has been constructed in London, England, for the Maharajah of Patiala, the glass enclosure of which enables the occupants to see out, but prevents outsiders seeing in.

Appleford Paper Products LIMITED

HAMILTON

ONT.

Western Representatives: HUNTER-MARTIN & CO., REGINA, SASK.

Western Students Receive Post Graduate Scholarships Awarded By National Research Council

The post-graduate scholarships awarded by the National Research Council for this year were announced recently. The scholarships total in value \$38,000, and have been awarded to 53 students. There are five fellowships for which \$1,000 each are given, 24 studentships each carrying with it \$750, and 20 bursaries, to the value of \$600 each.

The students obtaining the scholarships, the University of Graduation and the Department of Science in which award will be held include:

H. D. Smith, British Columbia, physics.

Studentships—Awarded in Western Canada: J. M. Armstrong, Saskatchewan, genetics; Miss M. H. Campbell, British Columbia, zoology; E. G. Hal-lonquist, British Columbia, cellulose chemistry; R. N. H. Haslam, Saskatchewan, physics; M. K. McNeill, British Columbia, chemistry; F. L. Munro, British Columbia, physical chemistry; F. H. Nicoll, Saskatchewan, physics; H. B. Sallans, Saskatchewan, organic chemistry; C. A. Winkler, Manitoba, physical chemistry.

Bursaries, awarded in Western Canada: J. F. Caley, Alberta, geology; K. R. Gray, British Columbia, organic chemistry; G. A. Harcourt, Alberta, physics; Miss J. F. L. Hart, British Columbia, zoology; O. J. Johnson, Saskatchewan, chemistry; N. R. Keevil, Saskatchewan, chemistry; H. B. Marshall, British Columbia, organic chemistry; J. H. L. Truscott, Saskatchewan, plant pathology.

A statement accompanying the results declared: "Selection of the successful candidates from the total of 166 who applied was made at the regular meeting of the council in March, but pending receipt of acceptances, public announcement was delayed. Rather than reduce the number of awards available, the council reduced their value. These have been offered to the candidates selected and acknowledgments have now been received.

"It is the opinion of the council that students to whom awards have now been made will be able to continue their work satisfactorily in spite of the reduction in value which has been made necessary this year by the reduction in the fund made available by the council for this purpose.

"Because of recent statements indicating that a certain amount of misunderstanding exists, Dr. H. M. Tory, the president of the council, has made the statement that all applicants complete each year on their merit and that there has never been any guarantee whatsoever that awards once granted would be renewed for a second or a third year. That this, however, was often the case is indicated by the fact that in the 12 years in which the council has awarded scholarships, 470 awards have been made to 283 students but the awards are made each year to the applicants which in the opinion of the council are the most promising."

May Visit Russia

Mr. Hon. David Lloyd George, the Liberal chief, may visit Russia in September. Mr. Lloyd George is said to be greatly interested in the Russian five-year plan and wants to make a first-hand investigation. Once before he proposed a Russian trip and the Soviet Government offered him every opportunity to make inquiries.

"What a lovely fur coat. How much did it cost you?" "Three fifts of hysteria." Hummel, Hummel.

W. N. U. 1533

France Buying More Wheat From Canada

Report Shows Outlook For Future Sales Is Good

In the first two months of 1931 Canada exported to France nearly twice as much wheat as during the months of November and December of last year and seven times as much as during the first two months of 1930. This information was contained in a statement prepared for Hon. H. H. Stevens, Minister of Trade and Commerce, by Hercules Barre, Canadian government trade commissioner in France. This indicates a serious effort on the part of France to fulfill the promise made to Premier R. B. Bennett, when the prime minister and Mr. Stevens visited France under the Imperial conference, the report declares.

For the three months following the unofficial agreement between France and Canada, French imports of Canadian wheat have amounted to 648,274 bushels, an increase of 2,120,000 bushels over the three previous months.

While Canada has been selling more wheat to France, the imports from other countries have not kept pace. In January and February of 1930, Canada supplied 17 per cent of France's total imports of wheat whereas in the first two months of 1931 she supplied 51 per cent. That the outlook for future sales is good is indicated in the report. The domestic stocks of wheat in France of sufficient specific weight are decreasing steadily, requiring more and more the use of wheat of high gluten content for mixing. "As this condition is becoming more marked," the report states, "there is naturally a greater demand among millers for Manitoba wheat which is generally considered as most effective for strengthening purposes."

Bee Battalions Fly

Huge Stores Of Honey Now Being Accumulated By Busy Workers

With the arrival of the bright sunny days of spring and early summer and the wealth of bloom now growth brings, the bee battalions resume their annual work of storing honey. Canada's annual honey crop ranges into millions of pounds gathered in at apiaries located throughout the entire Dominion. We all know that the proverbial busy bee sets a commendable example, and that huge stores of honey accumulate in the healthy hive. A better appreciation of the magnitude of the task which is the bees' in building up their stores, is afforded by figures just released by the Bee Division of the Dominion Department of Agriculture. As the result of a series of studies conducted over a period of five years it has been found by weighing hives that an average of 31,000 bees per hive wing their busy way in search of sweet nectar from day to day during the height of the season.

British Egg Market

Britain Imports 4,610,000 Dozen Eggs Per Week

In the current issue of the foreign egg market report the Poultry Division of the Dominion Department of Agriculture indicates that Great Britain at the present time is importing upwards of 4,610,000 dozen eggs per week. Denmark, the Netherlands and Poland are the largest contributors to this huge volume of exports; other countries include the Irish Free State, Belgium, Finland, France, Germany, Italy, Sweden, China and Egypt. Canada is not at the present time listed as a contributing country although a market which imports such huge quantities of eggs should hold something of opportunity for Canadian producers.

World's Largest Seed Fester

Declared to be the largest in the world, the Swedish State seed testing station was recently inaugurated by the country's crown prince. It is also said to be the most modern in every particular. Last year 108,127 seedlings were made by Sweden's seed testing department.

Good Prices For Export Cattle

Movement Of Live Cattle To Great Britain On Profitable Basis

Cattle were received by Hon. Robert Weir, Minister of Agriculture, giving the prices received for the latest shipment of cattle to Britain. These are sufficiently high to make the movement of live cattle from Canada to the United Kingdom one of great possibilities.

At the same time British Co-operative Association representatives who have recently toured Canada, have undertaken, subject to ratification by their directors, to take 75 Canadian cattle a week for 12 weeks, in order to decide the feasibility of a steady flow of 100 head weekly for the "Co-Op's" trade in Britain.

On the shipment for which the prices were made known, one consignment of finished cattle from Calgary will net the shipper back in Alberta over \$5.55 per hundredweight. Another consignment, also from Alberta, will not the shipper over \$6.00 per hundredweight.

With these prices known, a meeting of shipping representatives from Montreal has been arranged with Mr. Weir, to take place here, Monday, May 4, to canvass the market of cattle ready for shipment and the ocean space available. The present is an opportune time to ship cattle to the United Kingdom as Irish fat cattle are practically off the market for the next two or three months.

Will Travel In Modern Way

Dalai Lama, Of Tibet, Has Ordered Motor Car

Departing from all the traditions of his country and faith, His Holiness the Dalai Lama, ecclesiastical king of Tibet, has ordered an automobile sent to him at Lhasa, high in the Himalayas.

A newly trained Chinese chauffeur will pilot the car where routes are navigable, but where no roads exist, parties of 30 coolies each will be posted along the mountain passes and on the desolate Tibetan plateau to carry it in relays to its destination.

Heretofore, all automobiles have been dubbed "devil wagons" by highly superstitious Tibetans.

A National Air Tour Of Over Seven Thousand Miles Will Be Held This Summer

League Of Nations

League Will Succeed If People Are Behind It, Says Dr. Tory

"If the League of Nations is going to succeed, it will be because the people of the world put themselves behind the principles for which the League of Nations stands."

This was the declaration made by Dr. H. M. Tory, president of the League of Nations Society in Canada. The distinguished scientist and student of world affairs, who is also head of the National Research Council, was speaking to a large gathering of members of the Border Cities branch of the League of Nations Society of Canada at Ottawa.

"The League of Nations," he said, "has passed through a great deal of criticism. This year it is facing one of its most serious situations because of the coming disarmament conferences. It will be either strengthened or weakened in public opinion as the result of that conference."

Poultry Grades

Canadian Standard For Dressed Poultry Is Published

A supplement to the Canadian Standards for Dressed Poultry issued by the Poultry Division of the Dominion Live Stock Branch provides the following classification of kinds and sub-kinds: Chickens include squab broilers, broilers, fryers, roasters, poulters, capons and stags; Fowl include hens and roosters; The Turkey classes are young hens, young toms, old hens and old toms; Ducks—ducklings and ducks; Geese—goslings and geese; Pigeons—squab pigeons and pigeons; and Guinea—guinea chickens and guinea fowl. Complete definition and packing instructions are now available for distribution to interested parties through the Publications Branch of the Department of Agriculture at Ottawa.

Signaling the progress of aviation

In the Dominion a national air tour will this summer be carried out by the Canadian Flying Clubs' Association, assisted by the Aviation League of Canada. From the standpoint of the mileage to be covered and the number of aeroplanes taking part, the tour will be the greatest ever undertaken in any part of the world, said G. M. Ross, secretary of the Canadian Flying Clubs' Association, in making the announcement at Ottawa.

Occupying two months, the air pageant will visit every city in Canada where there are flying clubs affiliated with the association. A minimum of 25 machines, in a variety of types entered by manufacturers, distributors, commercial operators and private owners will take part in a journey of some 7,000 miles.

Date of the commencement of the flights and the itinerary will be announced in the near future, Mr. Ross said.

It is expected the National Defence Department will officially sanction participation by Royal Canadian Air Force pilots. The association hopes through the tour to foster interest in the construction of municipal airports and to encourage wider use of air mail services. Flying exhibitions will be staged in conjunction with local flying clubs at various points.

Soliciting Business In

British West Indies

Vancouver Woman Has Been Entrusted With Difficult Task

A woman has been chosen to find a market for the surplus output produced by the Fraser Valley in British Columbia. She is Miss Edith Bridges, manager of the export department of a Vancouver grain company, and she is on her way to the British West Indies to see what can be done about drumming up business in that territory.

Every year the Fraser Valley ships about 2,000 tons of oats to the West Indies, where the grain is used as feed for mules working on sugar plantations. Miss Bridges will have stiff competition from German and Dutch salesmen, who have been taking a lot of business. "But," says the manager of the grain company, Ernest Bucherfeld, "I have a suspicion that Miss Bridges will win. She is that sort of woman."

Heavy Tourist Traffic Forecast

Reports Indicate Good Business For West Says C.R.R. Official

Heavy tourist traffic for Western Canada this summer is confidently expected by the Canadian Pacific Railway, according to C. B. Foster of Montreal, passenger traffic manager who with H. E. Matheson, general passenger agent, Winnipeg, has been on one of his regular semi-annual trips to the Pacific coast.

"There will not be so much European tourist trade from North America this year as in previous years," Mr. Foster said. "That, however, will result in more money being spent in Canada. Our reports from all parts of the continent indicate that there is no doubt about this."

A noseless airplane is planned by a British engineer.

"I gave a man an old suit and he then asked me for three shillings."

"What for?" "To get the suit disinfected." — Eben Hummel, Madrid.

The Short and the Long of It

John Griffiths, diminutive Liverpool boy with ambition, signed on the Canadian Pacific liner "Duchess of Richmond" as a "belly" and made his first voyage on that liner when she opened St. Lawrence navigation for 1931 by reaching Montreal, Sunday, April 19th. John is 15, four feet and half an inch tall, and is looked upon as a mascot by the ship's company. With him is John Kane, Master At Arms of the "Duchess of Richmond," who is the tallest man on the ship—stands six feet two inches above the deck.

DEFINING THE WORD "CANADIAN"

The bill to define Canadian nationality more clearly has just received its second reading in the Commons, and while some slight changes may be made in committee, the prospects are that it will be passed practically as drafted by the secretary of state.

A clearer definition of Canadian nationality has been recognized as a necessity for some years. The question has never been satisfactorily settled since Confederation. In the present legislation the law the term "Canadian" means a person born in Canada who has not become an alien; a British subject who has Canadian domicile; or a person naturalized under the laws of Canada who has not subsequently become an alien or lost Canadian domicile.

The present bill aims to clear the confusion which the designation "Canadian" implies and thus removes a source of confusion. The bill defines a Canadian as follows:

1. Any person born in Canada.
2. Any person born out of Canada, the father of whose father, at the time of such person's birth, was a Canadian subject or possessed all the rights and duties of a Canadian subject, and who is not an alien.
3. Any person born in British subject who has not become an alien.
4. The wife and minor children of any naturalized British subject who has become a Canadian domicile.
5. A naturalized British subject who has Canadian domicile.
6. The wife of a naturalized British subject who is a Canadian subject who has Canadian domicile.
7. The minor children of a naturalized British subject who included in the declaration of naturalization to take were born subsequent to and permanent and who themselves have Canadian domicile.
8. Provision is made that Canadian domicile shall mean five years' residence in the case of those and two years in the case of British born. Anyone belonging to the prohibited classes of immigrants shall not be regarded as acquiring Canadian domicile.

Any man is a brute who expects his wife to wear a smile and last year's dress at the same time.—Gail R. Foster.

LOCAL & GENERAL

Mr. and Mrs. Teskey were Calgary visitors on Tuesday.

Knox United Church are holding their annual picnic at the Butte on June 17th.

Don't forget the Community Picnic meeting tonight (Thursday) at C. E. Reiber's office.

Note the change in prices for the tables. Twenty-five Cents to Everybody.

St. Stephen's Anglican Church, Sunday, June 11th: Evensong and sermon, 7:30 p.m. Rev. A. D. Currie, of Crossfield.

Mr. E. Craig left on Wednesday for Edmonton where he will attend the Grand Lodge of the Masonic Order.

A General Hospital for sick Waiters, Clerks, Photographers, Sewing Machines, Etc., Etc. In front corner of Club Lunch. All work guaranteed.—Advt.

Charles Geiger and a number of friends spent a very enjoyable Sunday at the home of Mr. and Mrs. Vinay.

The heavy rain on Monday night and the shower on Tuesday night gave great encouragement to farmers. It is reported that over an inch of rain fell on Monday night.

English Watches, Grandfather Clocks, and Chimes. Everything Ancient and Modern. Bring it to W. Monteith, North End Jeweller.

Miss Lucy Wilson, of Drumheller Municipal Hospital Staff and Miss Anne Wilson, of Calgary General Hospital are holidaying with relatives and friends in Didsbury.

Mr. and Mrs. H. M. Reiber spent several days in Calgary last week, where Mr. Reiber attended a convention of the Executive Life Insurance Company.

A meeting to arrange details for the Community Picnic which will be held at the fair grounds on July 1st will be held in C. E. Reiber's office tonight (Thursday). All businessmen and those interested are asked to attend.

Time out—Dr. Schell's "Foot Comfort Band-aids" over negotiated N.B.C. Stations each Tuesday at 10:45 p.m. Remember too "Foot Comfort Week," June 13-29. Band-aids and appliances for sale at J. V. Berscht's.

Zane Grey's "Fighting Caravan" at the movies Thursday, June 15th is one of the greatest pictures of the Great West. Where the "Covered Wagon" left off, "Fighting Caravan" begins. The admission to this big feature picture is 25 cents to everybody.

Mr. Peter Johnston, weed inspector for Western Lake Municipalities, spent part of his time of inspection this week. Mr. Johnston states that he is working in the interests of the community at large and that both he and the council hope they will receive the full co-operation of the farmers.

Misses J. V. Berscht and E. Kaufman left Monday for a trip to the east. They travel via Chicago to Toronto where Mr. Berscht will attend a convention of the Canadian Order of Foresters. From there he will go to Wellesley and Midway to visit relatives and friends. Mr. Kaufman will go to Midway to visit his parents. They will tour Ontario and return to Alberta by car.

Among Sunday fishermen and members seen along the Fallen Timber last Sunday were: Mr. and Mrs. H. Lee; Mr. and Mrs. McGee; Mr. C. R. Bond; Miss Clements; Mr. and Mrs. J. McChay; Mr. and Mrs. J. H. Lewis and family; Mr. and Mrs. J. Cathness and family; Mr. and Mrs. W. Pitt and family; Bill Hartley; Mr. and Mrs. J. Dalton; Ward Keith and family; Mr. and Mrs. A. Brasso; Mrs. Julie, Ted Brown, Tom Sharnan, Mr. Woodcock and families. Mr. and Mrs. Jack Fleury visited near the mouth of the stream and returned with a nice catch. Geo. Hardy and party went to the Big Fishing Hole and reports say they returned with a catch of forty-one graylings.

Drive 42,500 Tons at 25½ Knots

The largest cast bronze propellers in the world are shown above in this unique view of the after end of the new 42,500-ton Canadian Pacific Liner "Empress of Britain." These huge screws, the two larger ones each weighing 25 tons, and the smaller pair 17½ tons apiece proved their ability during recent trials to drive this new palatial ship through the water at a speed of 25.52 knots.

Another outstanding feature of the picture is the huge rudder, which weighs 67 tons. This huge helm was preceded during the journey by a construction gang which removed telephone poles and other obstructions encountered on the English roads.

Lower left is an inset of the Empress of Britain as she steamed over the measured mile at the fastest speed developed by a new British liner since the war.

The Empress of Britain sails from Southampton May 27th, and is due to reach Quebec five days later.

**Didsbury and Olds
Tie In Soccer Game**

Didsbury made a good showing in their first league game of the season on Saturday evening when they met Olds.

The first half was pretty much in Olds' favor and the local team was on the defensive most of the time. Olds registered one goal, but the good defence of the local backs prevented any further scoring. Ken Robinson in goal and Clint Reiber at full-back putting in good work.

In the second half Didsbury pepped up and took up the attack. Brewster tying the score on a pass from Steele. The rest of the period was evenly played, neither side being able to score and the game ended in a tie, 1-1.

With a little more practice the local boys should be able to give a good account of themselves.

**"Country Clowns"
Successful Showing**

The Didsbury "Country Clowns" made a very successful showing in recent games. On June 3rd, the girls defeated the Olds team with a score of 21-14.

Their second game was played at Carstairs on Friday and excitement ran high when the score tied in the first half of the seventh. In the first half of the ninth, Lottie Hunsperger, captain of the Clowns brought in the final count of the game. The final score was 6-5 in favor of the Clowns.

Line-up:

c: Ella Baritz; p: Greta Folkman; lb: Lottie Hunsperger; 2b: Ethel Hunsperger; 3b: Holly Hunsperger; ss: Alma Folkman; lf: Emma Befus; cf: Aileen St. Clair; rf: Rita Wilson; subs: Grace Irwin and Ruth Frisch.

The girls would appreciate the support of the local fans.

Inter-Schools Sport.

Didsbury High School boys beat Innisfail boys on their own diamond last week, the score being 8-7. The High School girls proved themselves equal to the boys by beating the Innisfail girls with a score of 16-4, but lost to Carstairs by 27-7. The boys beat Carstairs by 10-8.

Line-up:

c: N. Honey; p: A. Durrer; lb: R. Gulliver; 2b: C. Geiger; 3b: T. Pearson; lf: F. Evans; rf: P. Booker; cf: R. Hollub; ss: L. Berscht.

Burnside Notes

The welcome rains have arrived at last and everyone is smiling. Mr. Jim Tait is spending a few weeks on his farm at Oyen, Alta.

George Sheils went to Turner Valley on Tuesday.

Mr. Fred Metz was a Carstairs visitor on Monday.

Many parents and children took in the operating clinic at Community Hall last week and numerous operations are reported. All seem to be doing well.

Burnside U.F.A. met Monday night and arranged their annual picnic for June 30th. Bring lunch, tea and coffee provided and hot dogs for sale. Dance at night. Sports.

The horseshoe team went to Olds last Wednesday and played East Olds and Eagle Hill, winning both games. This puts them at the top of the league. The game on Tuesday night with West Olds was called off owing to rain.

(Too late for publication last week.)

Mrs. Walter spent Sunday with Mrs. Eckel.

Lone Pine W.I. held a very successful picnic and dance on May 25th.

Mr. Sam Haslam, of Calgary was a caller at the A. E. Thompson home Monday last.

Mr. Albert Arlondson accompanied by a couple of friends took in the dance at Huxley on Friday night.

Mr. and Mrs. Joe Clark and Ralph Long spent Sunday with Mr. and Mrs. McMurray at Westcott.

Mr. Ralph Long who has been laid up for some time as a result of a fall from a horse, returned to his job near Acme on Monday.

Burnside U.F.A. will meet in Lone Pine Hall on Monday evening, June 8th. A full attendance is requested as arrangements are to be made for the annual picnic on June 30th.

Lone Pine W.I. will meet at the home of Mrs. B. Woods on Thursday, June 10th. A report of the recent convention will be given by the constituency convener, Mrs. Hoesgood who is expected to be present.

What the Ice Age looked like, millions of years ago, is exactly pictured in the snow-covered, 300-foot field, extending for hundreds of miles in the Rockies, and easily accessible from Lake Louise, said Walter L. Payne, in a recent lecture entitled, "The Harshback to the Glacier Age." The field extends in the form of glaciers to three miles from which meltwater rises and to the Arctic, Pacific and Atlantic oceans.

Champions of the Railway Photo League and winners of the Hearty Trophy and the Thornton Cup, the Canadian Pacific Railway hockey team, were individually presented with gold watches suitable mementoes, the gift of E. W. Beatty, chairman and president of the system, in honor of their victory, at a banquet at the Hotel Astor, Montreal, recently. The team will play Winnipeg at the end of March for the all time hockey championship of the Railway. (11)

The Harvester-Thresher Savings Investment Plan

Makes It Easy For You to Own a McCormick-Deering Harvester-Thresher

Under This New Plan Every Responsible Grain Grower Can Pay for His McCormick-Deering Out of a Part of the Savings His Combine Will Make

CROP production cost figures compiled by McCormick-Deering Harvester-Thresher users show a saving of from 15 to 20 cents per bushel as compared to the binder method of harvesting.

We are so confident that thousands of Canadian grain growers can make proportionate savings with a McCormick-Deering Harvester-Thresher that we have announced the McCormick-DEERING HARVESTER-THRESHER SAVINGS INVESTMENT PLAN. By taking advantage of this plan, you or any responsible grain grower can purchase a combine now and practically pay all the cost out of the savings you will effect during the next three harvests.

Under this plan you get a time-tried and time-tested combine backed by 18 years of field experience. The details of the plan have been given to all McCormick-Deering dealers. Go to the dealer in your town and ask him about it, or write directly to us if you prefer.

Research Laboratory For Wheat Suggested

Might Develop New Products To Take Care Of Surplus

A research laboratory for wheat! Here's a suggestion contained in a well-thought-out article in *Printers' Ink*, a progressive trade magazine of New York.

Wheat is a world problem today. It is particularly a Canadian problem, because of the dominating position Canada holds in the production of wheat, and as a result of the wheat-growing areas being extended farther north and wheat-growing areas being now largely used in the older-settled sections. The editorial in *Printers' Ink* says:

"With all the talk about wheat, but very little has been said about research, either market or chemical. It is more than possible, it is probable, that real research on wheat might develop a group of new products that would help mightily in the present surplus."

Research work on behalf of wheat hereabouts has been principally in the direction of improving varieties. Every Canadian knows what has been accomplished with "Marquis" and "Garnet," but the development of these varieties has only added to the surplus of the output. Research in the direction of discovering new uses for wheat and new products made of wheat, or partly wheat would, it is hoped by the writer of the article in *Printers' Ink*, result in taking care of the increased production and even make possible still greater production with a ready market.

Million have been spent in research work in other lines of industry. Why not a market or chemical research laboratory that could aim at discovering new uses for wheat, which, after all, is not entirely a food product?

It has been suggested that a non-political group of business men get together and take this matter up with the Dominion Government, or themselves organize a National Wheat Research Laboratory to be endowed by patriotic subscription. The Government, the Wheat Pool, the transportation companies, if it is added, would be justified in investing millions in this work. The suggestion is thought-provoking. St. Thomas Times-Journal.

British Navy Will Visit Kiel

For the first time in 17 years' a British naval unit will visit Germany this summer. The admiralty announced it had accepted an invitation from the German Government and that H.M.S. Dorsetshire and H.M.S. Norfolk, would pay an unofficial call at Kiel from July 4 to July 17. The last time such a thing happened was in June, 1914.

Reduction of railway fares in the Philippines is forcing bus lines to merge.

How Women Lose Fat In England

How would you like to lose unhealthy fat that you don't need and don't want, and at the same time feel better than you have for years?

How would you like to lose your double chin and your too prominent abdomen, and at the same time make your skin so clean and clear that it will compel admiration?

How would you like to get your weight down to normal, and at the same time develop that urge for activity that makes work a pleasure and also gain in ambition and keenness of mind?

Get on the scales to-day and see how much you weigh. Then, get a bottle of *Kosmosen Salts*. Take one-half teaspoonful every morning in a glass of hot water, and when you have finished the first bottle weigh yourself again.

Now you will know the pleasant way to lose unsightly fat, and you'll also know that the six vitalizing salts so Kosmosen have presented you will glorify health.

That's the way, Englishwomen keep slim—why not you?

British Navy Will Visit Kiel

Canadians Honored

Scientific Men Elected As Fellows Of Royal Society Of Canada

Ten Canadians distinguished in scientific and academic fields have been elected as Fellows of the Royal Society of Canada. The recipients of this honor, as announced are:

Section 1—Rev. O. Mansuett, director of St. Joseph's technical school.

Section 2—Dr. Harold Hilbert, McGill University; Dr. Joseph A. Price, Dominion astronomical observatory, Victoria, B.C.; T. T. Rossburgh, University of Toronto.

Section 3—Professor M. B. Baker, Queen's University; Dr. William E. Gedfield, geological survey, Vancouver; Dr. H. S. Warren, University of Alberta.

Section 5—Dr. C. H. Best, University of Toronto; H. T. Gussow, Dominion biologist, experimental farm, Ottawa; Dr. Pierre Masson, University of Montreal.

The next meeting of the society will be held in Toronto, where the members will be the guests of the University of Toronto.

Prof. "Correct this sentence. Before any damage could be done, the fire was put out by the volunteer fire department."

Boy: "The fire was put out before any damage could be done by the volunteer fire department."

Fuel and electricity used for heating and power purposes by the firms classified in the iron and steel industries in Canada in 1928 cost \$14,749,638.

A large elephant will consume from 100 to 125 pounds of hay a day, besides the mash which is also given.

New Cunard Liner

Seventy-Three Thousand Ton Vessel Being Built In Scotland For Trans-Atlantic Travel

Practically the whole world will take some part or other in the construction of the new 73,000-ton Cunard liner at present being built at the yards of the John Brown Company, Clydebank, Scotland.

This liner, which when finished will be the finest liner ever constructed for trans-Atlantic travel, is the result of four years' intensive planning on the part of the best marine minds that could be brought together.

For several years before the ship was ordered, intricate tests were carried out in the laboratories of John Brown and Company, for which models—exact replicas of the new Cunarder—were constructed. These models were placed in specially-designed tanks and submitted to every condition of wave and wind that might possibly be encountered on the Atlantic Ocean.

When the final model was approved and the plans for the docking facilities completed at Southampton, work was commenced in the same yards in which the famous "Aquitania" was constructed.

Right across the Clyde from where the new Cunarder is being built is the River Cart. It will be necessary to cut a very large part of the bank of this river away as well as deepen it, as the launching of such a large vessel is without precedent; launching preparations are at present demanding a great deal of care in the working out of the problems of committing the giant vessel to the water.

This recalls to mind the great care and attention which was paid to the launching of the "Aquitania" when she was launched on the Clyde, and that event it was found expedient to make a large cut in the bank of the river to allow for the ship to be launched.

The household equipment for this new "Queen of the Seas" will include 20,000 pieces of silver, 7,000,000 pieces of china, pottery and glass, and an incredible quantity of linen and furnishings of every conceivable sort.

Indications at present point to a launching early in 1932—considerably in advance of the date originally set last year when the order was given to John Brown and Company.

The first opportunity that the general public will have to view the construction of this new Cunarder will be when the yards of John Brown and Company are opened for public inspection during Glasgow Week, and preparations are being made for thousands of visitors to be taken care of when are anxious to get a glimpse of this ocean giant in the making.

To Detect Intoxication

Chemical Detection Invented By University Professor

A chemical detector of intoxication has been invented by Dr. Rollo N. Harger, of Indiana University. It makes possible an unerring detection of intoxication by taking a sample of the human breath and subjecting it to simple chemical tests. The device may serve police authorities to convict persons of driving motor cars under the influence of liquor. If there is alcohol in the breath the solution changes color from red to white even when the breath has no odor of alcohol.

Dough's Egyptian Liniment should be in every household. Stops bleeding at once, cauterizes wounds and prevents blood poisoning. Keeps away inflammation and proud flesh.

Central Heating Plant

The Northern Public Service Corporation and the Winnipeg Heating Co., have purchased a site for their new central heating plant, and work will commence soon. The cost of the plant is estimated at \$1,500,000. It will provide employment for 1,000 men.

Rugby W.F. met at the home of Mrs. Wahl on June 3rd with an attendance of nineteen members and four visitors. After business was over, "Current Events" were given by Mrs. G. Youngs, followed by a paper on "Immigration" by Mrs. Bolton. A full report of the W.F. Convention was next given by the secretary, which concluded the afternoon's program. The meeting closed and lunch was served. The next meeting will be held on the second Wednesday in July at the home of Mrs. Hoegood.
